

Joomla Website

Having a school website is an effective way of communicating with your schools wider community, including parents, pupils and prospective pupils. Invictus Technology has a range of easily updatable, **affordable website solutions** and provides full training , on-going support and hosting to ensure that each school is able to manage their own website.

Based in the West Midlands, Invictus Technology has a proven track record of successfully delivering IT solutions across a broad range of industries throughout the UK. ***In particular we have been working with schools in the West Midlands since 2005.***

What is Joomla? Joomla is an award-winning content management system (CMS), which enables you to build Web sites and powerful online applications. Many aspects, including its ease-of-use and extensibility, have made Joomla the most popular Web site software available. Being open source Joomla benefits from a huge development and user community (over 50,000 registered users at forum.joomla.org) - making it the most versatile platform for building scalable websites.

Features of Joomla include:

- Document management
- Image and multimedia galleries
- Forums and chat software
- Calendars
- Blogging software
- Podcasting
- Email newsletters
- & many, many more....

Online learning resources such as video, feedback forms and **virtual learning environments** compliment the Invictus Technology range of solutions for school websites.

To discuss whether your school would benefit from a Virtual Learning Environment (VLE) by Invictus Technology please contact us on 0845 680 0387 or email info@invictustechnology.co.uk

Simple Website Management

The basic Joomla! package is designed to be easy to install, even for **non-programmers**.

Templates

There are many **website templates** available for you to upload to your Joomla backend. This means you don't have to mess around with html or Dreamweaver to design your site.

Applications

Joomla is used all over the world to power everything from simple, personal homepages to complex corporate web applications.

Blogging

Allow your pupils to blog about their course work or experiences at school - subject to **teacher publishing review**.

Podcasting

Bringing the educational benefits o podcasting to your students. The process of putting together an audio recording is extremely valuable and is certainly a **cross-curricular experience**.

There is no catch!

Joomla is free, open, and available to all under the GPL license.
